SUMMARY

Motivated and organized B.Tech. Information Technology student with a strong desire to learn and excel in the field of programming. Energetic and hardworking individual with effective problem-solving and communication skills. Excels in team management and possesses a passion for UI & UX designing.

EXPERIENCE

Front-end Development

Binox Software August 2022 - October 2022, Jaipur

- As a Front-End Developer at Binox Software, I successfully contributed to the development of innovative web-based solutions. With a keen eye for design and a strong understanding of HTML, CSS, and JavaScript.
- I collaborated closely with the design and back-end teams to create visually appealing and responsive user interfaces.
- I efficiently implemented front-end frameworks and libraries, ensuring optimal performance and cross-browser compatibility.

PROJECTS

Bike Rental Website

May 2022 - July 2022

- Discover the freedom of two wheels with our bike rental website. Offering a wide selection of bicycles for rent, it provides a convenient and hassle-free way to explore your destination. From city bikes to mountain bikes, our user-friendly platform makes renting a bike for your adventures quick and easy.

Enrollge

November 2021 - April 2022

- Enrollge is a comprehensive online platform catering to engineering college students.
- It offers a vast library of video lectures, detailed notes, and question papers, providing students with valuable resources to enhance their learning.
- With Enrollge, students can conveniently access all the necessary materials to excel in their engineering studies.

HandWriter

April 2021 - May 2021

- HandWriter is a unique website that transforms text into authentic-looking handwriting fonts.
- With a wide range of font styles to choose from, users can easily create personalized notes, invitations, or designs that capture the charm and warmth of handwritten messages, adding a personal touch to their digital content.
- HandWriter offers a user-friendly interface, making it effortless for anyone to convert their text into beautiful handwriting fonts.

Hotel Menu Card

January 2021 - February 2021

- Elevate your hotel dining experience with our Python-powered menu card.
